

1 Year Warranty

Electric Field Sensor Switch (BE9001 and BE9001B)

Electric Field Sensor Technology (patented)

- No moving parts to wear out or seals to leak
- Ideal for use in controlling electric bilge pumps (12 and 24 V d.c.)
- Senses water level and automatically controls the pump
- Short time delay - prevents pump turning on/off with wave motion
- Innovative switch design is sealed and solid - state
- Protected from exposure to solvents or corrosion from liquids in the bilge
- Environmentally friendly - no toxic mercury
- Up to 20 amps switching capacity

Certifications and Standards

- CE Certified Directive 89/336/EEC - Approved for sale and use within the EU
- Conforms to ISO 8846

Model Specifications

Model	BE9001/BE9001B
Voltage	Suitable for 12v and 24v
Max Current	Max 20 amp
Min Wire Size	16 AWG
Weight	108 g
Materials	Body : ABS
