PRESSRELEASE

WATSKI AB GETS A NEW OWNER!

Watski AB and its subsidiaries was 2015-06-04 acquired by the Danish company Nautech A/S.

Nautech A/S is part of a family owned company group with headquarters in Denmark. The company group is well consolidated with several ownership in the marine industry, hydraulics and industrial components and systems, consumer products and real estate business.

For Watski, the new ownership with strong financial capacity is very exciting and ensures an expansive and continued strong position in the Scandinavian marine market.

Watski's daily business continues as usual, and we look forward to working together with our customers and suppliers to give our competitors a really tough match.

Best regards
WATSKI AB
